

MasterLevel Box Pro

Electronic spirit level in handy format and Digital Connection

This digital electronic spirit level allows angles to be transferred and slopes to be precisely aligned. The measured values obtained can be transferred to a smartphone using the Digital Connection interface. The display flips automatically when taking overhead measurements and is therefore easily legible in any position. The tool can be easily attached to metal surfaces and fits comfortably into a shirt pocket or tool box due to its compact design.

- Easy alignment of slopes
- Reference function for transferring angles
- Digital Connection interface for use with MeasureNote app
- Comfortable overhead measurements thanks to flip display
- Hold function for locking the current measured value on the display
- High accuracy and precise adjustment to the measurement area thanks to calibration function
- Adhesion magnets
- Compact design

TECHNICAL SPECIFICATIONS

ELECTRONIC MEASURING PRECISION	± 0,05° at 0° and 90° ± 0.1° at 1° ... 89°
MEASUREMENT RANGE	360°
ANGLE MEASUREMENT	
DISPLAY ACCURACY	2 decimal places
DISPLAY ACCURACY 0° - 1°	2 decimal places
DISPLAY ACCURACY 1° - 90°	1 decimal place
PORT	Digital Connection
POWER SOURCE	1 x 1.5V LR6 (AA)
OPERATING CONDITIONS	0°C ... 50°C, max. humidity 85% rH, no condensation, max. working altitude 2000 m above sea level
STORAGE CONDITIONS	-20°C ... 70°C, max. humidity 85% rH, no condensation
DIMENSIONS (W X H X D)	59 mm x 59 mm x 28 mm
WEIGHT	86 g (incl. battery)
